

Demonstration Plugin

A Demo_Plugin is [Demo_pi_sample](#)

- If you don't have a free opensource account at github, perhaps you should.
- If you haven't downloaded github desktop (windows) it is useful.
- You should learn command prompt git commands, they are very useful.
- Publish your opensource plugin on git.
- Atom is a very useful text editor that has additional benefits when used with git.
- Notepad++ is often used too.
